If they're having trouble getting there, they aren't getting things done.

SIMPLIFYING THE TRIP, SO TRAVELERS CAN BE MORE PRODUCTIVE.

You know what it's like to get stuck in an airport. Or to not have a room. Or the rental car you were promised. Your employees do, too. And nothing gets in the way of a good business trip faster than bad travel.

Remove the roadblocks to working on the road.

Concur – the world's leading T&E technology – replaces time-worn tools and gives your modern workforce a way to travel that suits their preferences and your productivity goals.

Concur automation simplifies everything from booking to expense reports, so all your travelers have to focus on is the work at hand. And you get more control over every travel dollar.

THE BEST RUN **SAP**

SAP Concur C·
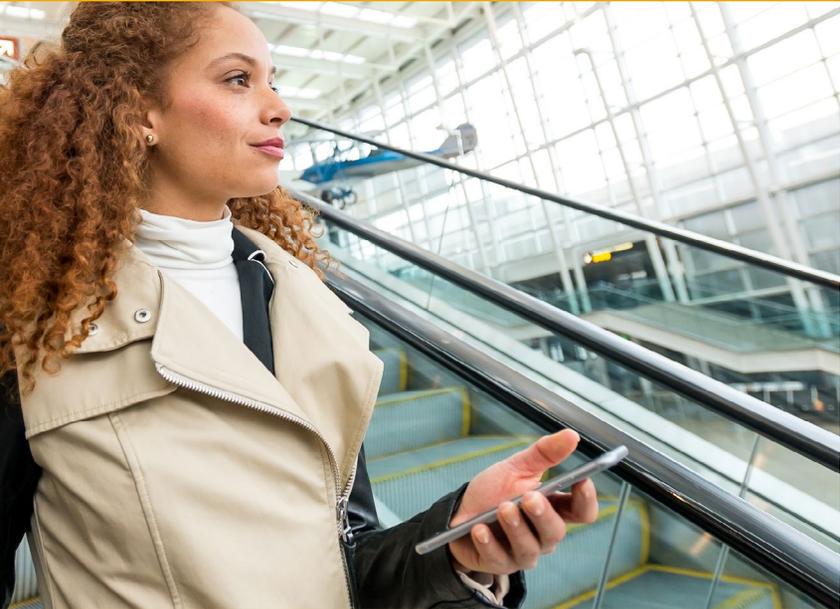

**Make things easy for your travelers,
and they'll make sure things get done.**

How much more work could get done if expense reports weren't work?

Paper receipts are a pain. But what if travelers could just snap a picture and upload them to their expense reports? What if electronic receipts from airlines, hotels, car rentals and taxis could prepopulate as itemized charges?

What if expense reports essentially wrote themselves?

Concur – now part of SAP and easily integrated with your SAP solution – not only makes it possible, it makes things faster, better and more accurate.

A booking tool your team will actually *like* to use.

Point, click, go. That's how easy things have become, and that's what Concur gives you. Plus tips and tricks that keep travelers within policy, direct them to the very best deals, and connect them to select suppliers for more global flight and hotel choices.

And with more options and easy-to-use tools, your employees won't look or book anywhere else.

It's all in the app.

No more processes getting in the way of productivity. Concur for Mobile helps users manage every travel- and expense-related item with a few quick taps on their smartphones:

- Book trips, manage itineraries, capture receipts and submit expense reports with mobile ease.

- Use Concur TripIt to share itineraries, get flight alerts/options, track rewards and check refunds.

- Access TripLingo to help with language, cultural and emergency issues on international trips.

- Integrate Uber and Concur and get ride-sharing, e-receipts sent straight to the expense report and access to Uber for Business dashboards – all for free.

- Get all the little extras that make a huge difference on the road.
