# Product benefits

SAP® Concur® solutions help empower companies through important business moments to help them run better. When it comes to company spending, every moment is both a moment of opportunity and a moment of risk, so it's crucial that businesses can achieve more complete visibility into expenditure.

Connect your financial data and take control of expenses with Concur® Expense to automate your spending processes and empower your organization to run efficiently on the go and in the moments you need it.

Concur Expense delivers four primary benefits:

## 1. Know Your Cash Flow

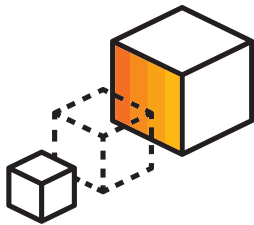

- Connect expense data and reduce manual data entry, saving time and money on processing expense claims.
- Use accurate and consolidated data to make smarter business decisions.
- See expenses in the system, including open but unapproved ones, for a true picture of upcoming cash flow.

## 2. Minimize Risk

- Help manage data accuracy. Importing feeds from travel suppliers and corporate credit card providers eliminates manual data entry, reduces errors, and increases data integrity.
- Protect your business by managing compliance. Quickly update your policies when needed and flag exceeded spend thresholds.

## 3. Streamline Workflows

- Integrate Concur Expense with most ERP, CRM, HR, and accounting systems to create a single platform that brings spend data together, speed up processes, and provide an accurate, timely picture of your finances.
- Empower employees to manage travel and expenses (T&E) quickly and easily. Snap receipts and attach to expense claims using the SAP® Concur® mobile app. Spend less time on expenses, more time on valuable work.
- Increase compliance with expense policies and simplify reimbursements with solutions from our banking and fintech partners.

## 4.Enable Scalability and Growth

- Faster ROI, with an intuitive user interface that promotes quick employee adoption.
- Automatic ongoing functionality and maintenance upgrades means less work for your team.
- Find a breadth and depth of resources to support you in the SAP Concur Community with thought leadership, digital communities, and user groups.
