

POWER COUPLES

Concur Expense & Concur Invoice

It's a spend automation dream team: Concur® Expense and Concur® Invoice are two great solutions that work even better together. You already streamline your expense process by automating it with Concur Expense. Partnering it with Concur Invoice brings that same level of efficiency to your accounts payable and gives you more complete spend management visibility.

When you pair Concur Expense and Concur Invoice, what more can your employees and your company accomplish?

A technology companion for your AP process for total spend management

Automate your vendor invoicing process in tandem with your expense process to reap the benefits of truly integrated offerings from SAP Concur solutions.

- Automatically capture, validate, and route for approval every invoice
- Gain a clear, near-real-time view into all employee spending to proactively control it
- Integrate purchasing card and invoice information with your travel and expense data
- Help you save time and money

Do you have a clear view of your total spend?

When your invoice data is scattered across paper, emails, and spreadsheets – separate from Concur Expense – how can you know where people are spending, and early enough to do something about it?

Finance leaders' top obstacles to meeting their organization's strategic goals:

- 34%** cite a lack of data analysis tools and technologies¹
- 57%** cite increased difficulty managing cash flow or spend²

Manual processes are costly and risky at any scale

- 13+ hours** of accounting and finance time per employee is typically spent on processing invoices each week³
- 37%** of finance leaders feel they effectively maintain financial visibility and data to inform decision-making⁴
- 34%** of finance leaders feel they effectively collect, process, and pay vendor/supplier invoices⁵
- 29%** of finance leaders think they can effectively manage cash flow⁶

Your Spend Management Dream Team

By extending Concur Expense with Concur Invoice, you can connect the dots on expense and invoice spend, gain near-real-time spend visibility and control, and make your spend processes run better.

- \$43,000** Average annual savings after implementing an invoicing solution⁷
- 134 hours** Average time saved weekly across the finance team using an invoice solution⁸
- 7 months** Average time to positive ROI after implementing an invoicing solution⁹

Together, Concur Expense and Concur Invoice offer full transparency into all critical areas of spending, to help you eliminate surprises and late fees, save more by paying early, and effectively negotiate discounts.
