

## Need to link your SAP Concur solutions with your core SAP S/4HANA or SAP ERP application?

An intuitive, secure process helps make integration faster and straightforward.

- 
**1. User-friendly setup**
  - The setup wizard integrates software without the need for code.
  - SAP software add-ons cover data exchange and core processing.
- 
**2. Automatic error detection**
  - Built-in monitoring tracks the integration process.
  - Error identification lets you make immediate corrections.
- 
**3. Automatic, near-real-time data exchange**
  - Two-way communication keeps solutions connected.
  - Encrypted, synchronous message exchange keeps data secure.
  - Data-transfer alerts keep solutions synced.

## Simplification for Finance and IT

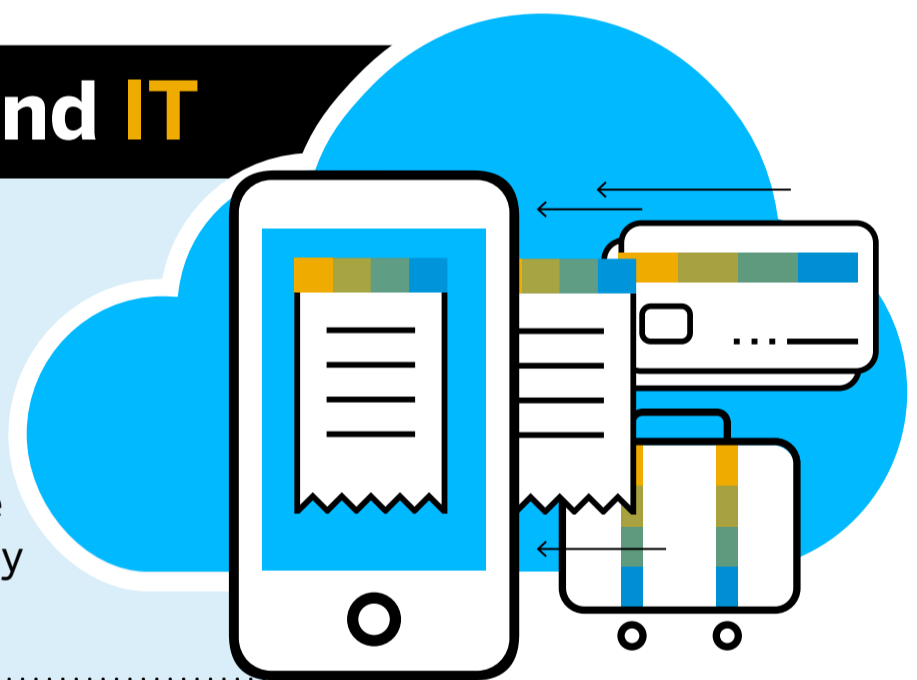

SAP Concur solutions help simplify travel and expense for both finance and IT.

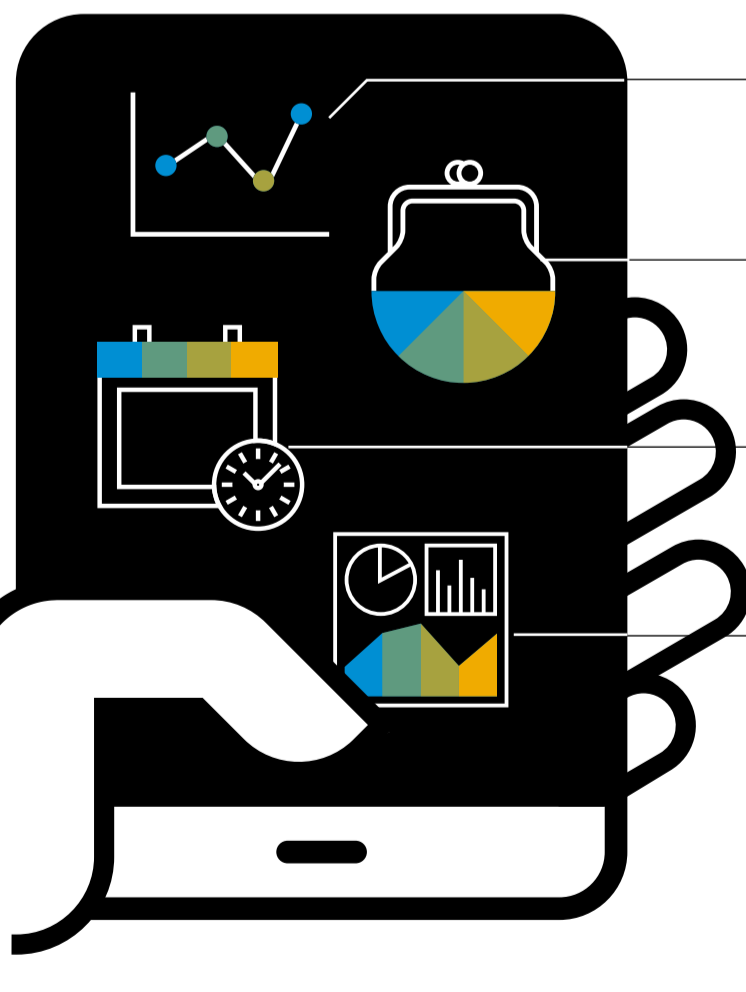

Finance can manage employee spending wherever it happens.

IT gets intuitive integration and security – plus the ease and scalability of the cloud.

## Visibility and Control for Travel and Expense Spending

- Get accurate, up-to-date financial data
- Reduce costly posting errors
- Track when expense reports are posted
- Examine expenses with a complete financial picture
