

How **Managed Rates Administration** Helps You Get the Best From Your SAP Concur Solutions

The flexible and comprehensive rates available within your SAP® Concur® solution provide nearly endless options for configuring your system to meet your spend management needs in countries around the world. However, lots of choice can also create additional questions and work as you seek the best way to manage and maintain all these rates. Managed Rates Administration can help by providing on demand, expert rates management across your solutions.

1**Grow Your Business, Not Your Complexity**

As your business expands, particularly into new countries, so will the number of rates that need to be maintained within your SAP Concur solution. Whenever you are ready to make changes, Managed Rates Administration can help ensure your information is accurate and up-to-date to your specifications, helping you to optimize your spend management and ensuring government and regulatory compliance.

2**Gain Peace of Mind**

Travel allowance rates. VAT rates. Mileage rates. Taxability and deductibility. These are all rates that need to be configured and maintained within your SAP Concur solution. Whenever you are ready to make changes, Managed Rates Administration can help ensure your information is accurate and up-to-date to your specifications, helping you to optimize your spend management and ensuring government and regulatory compliance.

3**Add experience, Not Overhead**

Running a business is complex. It requires specialized talent to ensure that all areas of your operation are working optimally. With Managed Rates Administration you will have experts dedicated to maintaining this important area of your business, employing subject matter expertise while freeing your staff to stay on point with their most critical tasks.

4**Keep Systems Moving as Fast as the World Does**

The pace of business is only accelerating, particularly for those operating in multiple countries. When you need changes made to your statutory or custom rates you don't want to spend extra time securing budgets, getting approvals, and scoping the work. With Managed Rates Administration you don't have to. The on-demand workflow is streamlined so your changes are made quickly and consistently.
