

Let Configuration Services Take the Pressure Off Higher Education Travel & Expense Admins

Your SAP Concur Admin might not be able to keep up with the constant changes to workflow settings, policy updates, audit rules, allowances, and more. Get support that moves your school forward and keeps its travel and expense (T&E) configurations and settings up-to-date.

Evaluate Your Higher Education School's Configuration Adaptability & Readiness

Your school has invested valuable time and resources implementing its T&E platform, but is there time to maintain it?

Ask yourself, do you:

Need a new or updated workflow?

Need new travel policy guidelines?

Have new travel policies to implement?

Have travel allowance updates?

Need to add a new credit card or lodge card feed?

Have new audit rules to implement?

Our experts can remotely adjust expense types, enable SSO for security, and align your T&E solution with your policies and strategies via case requests, avoiding travel costs.

Give Your Staff More Time to Focus on Bigger Projects

Ensure your school can stay relevant. Maintain your T&E configurations quickly and easily with two options:

60
SERVICE HOURS

120
SERVICE HOURS

With pre-contracted service hours, there's no need to seek out extra budget or wait for approval on additional paperwork.

The Benefits of Configuration Services for Greater Efficiency & Confidence

We find many of our higher education customers don't have the dedicated resources to maintain their system. Ensure that you're getting the most out of your school's investment:

Each request is drawn down from your set purchase of hours

Available on demand when you need it

Direct access to configuration experts and best practices

Plan your budget ahead, so it's there when you need it

Streamline operational efficiency from the get-go

Maximize administrator time and productivity

Let Configuration Services Be Your Partner for Resiliency in Higher Education

SAP Concur solutions for higher education are proven and used by over 700 schools. Let us help your school:

Focus your team on what matters
