

# Improve End-User Experience with SAP Concur Solutions

Employee experience isn't just a buzzword. The working world is complex and nuanced, and employers find themselves faced with a growing need to cater to employees' preferences or risk losing them. When it comes to keeping a highly specialized workforce happy, you don't want the systems they use on the job to be the source of their frustration. So, what do employees want?

At the top of the list is flexibility. Hybrid work is here to stay and employees want to choose when, where, and how they work and travel.

Employees are also suffering from digital exhaustion and overwork. Giving employees the tools to work more efficiently and focus on value-added tasks can help keep burnout at bay.

More than ever, employees expect their employers will ensure their safety, including providing tools to help make safe choices. And they want all this done sustainably. In short, they want a lot. Fortunately, SAP® Concur® solutions can help you deliver a positive employee experience when it comes to travel, expense, and invoice management.
